## **Live wind data available on City of Albany website**

A new page on the City of Albany website is allowing the public to view live wind data from Emu Point.

An anemometer at Emu Beach is now recording wind speed, direction and gusts at Emu Point.

The data is being collected as part of the Emu Point to Middleton Beach Coastal Adaptation and Protection Strategy and is funded by the Department of Transport, Albany Port Authority and the City of Albany.

The information is updated every ten minutes on the City of Albany website.

More information is available at [www.albany.wa.gov.au](http://www.albany.wa.gov.au).
