

City of Albany Transfer Stations User Guide

Rural transfer stations provide a domestic waste service for rural ratepayers. Farm and commercial waste is not accepted at these sites.

Domestic Rural Waste Service Passes are required to use any City of Albany Rural Transfer Station and must be presented at each visit.

Each financial year one Domestic Rural Waste Services Pass is issued to rural ratepayers. This pass entitles you to dispose of your domestic waste at any of the City's rural transfer stations as well as the Hanrahan Rd and Bakers Junction landfill sites. Each pass has 52 tokens with each token equal to a 140 litre bin of rubbish.

One pass for a ute/trailer load of waste is also issued each financial year. This is the blue pass that can be used once only.

Additional passes can be purchased from the City of Albany, North Rd office at the fees below.

Additional Domestic Rural Waste Pass Fee Schedule

Card Type	Waste Quantity	Cost
26 pass card (bin)	140 litre bin	\$45
52 pass card (bin)	140 litre bin	\$90
2 pass card (ute/trailer)	Ute/ trailer (6x4)	\$40
5 pass card (ute/trailer)	Ute/ trailer (6x4)	\$100
10 pass card (ute/trailer)	Ute/ trailer (6x4)	\$200

All recyclable products accepted in the kerb side service are also accepted at transfer stations free of charge. See the recycle instruction on the second page or go

<http://council.cleanaway.com.au/albany/collection-services/recycling-service.aspx> for more information on what recycling can be deposited at the transfer stations.

Procedure for depositing your waste and recycling

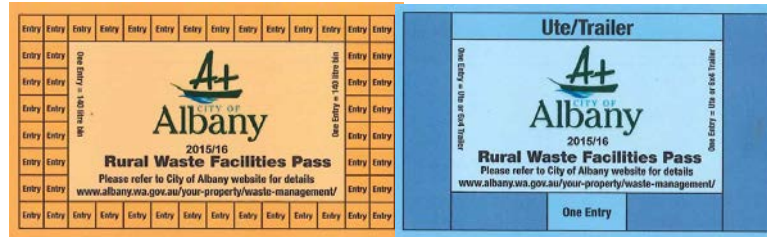

1. On arrival at the transfer station report to the attendant who will check your pass is current and your load. The attendant will punch holes in your card tokens depending on the equivalent number of 140lt waste bins you are depositing. Depositing recycling is free and your card will not be punched for any recycling that is deposited.
2. If you don't have a Rural Waste Pass or a Ute/Trailer Pass you will not be permitted to dispose of your waste at the transfer station and will be directed to Hanrahan Rd or Bakers Junctions Landfill sites. Note -charges apply at these sites.
3. Deposit your recycling in the recycling bins provided.
4. After depositing your recycling move your vehicle to the general waste unloading ramp to deposit your waste in the large skip bin.
5. If you have scrap steel please deposit in the steel bin. Note - no fencing wire, fencing mesh or commercial quantities of steel are permitted.
6. As you leave the transfer station be aware of other vehicles moving about the area.
7. If attending the transfer stations near closing time, please allow enough time to unload so the transfer station can be closed on time.
