Middleton Beach Redevelopment Plans

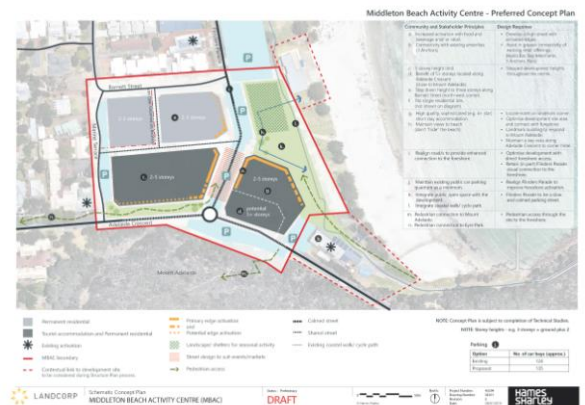

The City of Albany has been working closely with LandCorp towards the plans to redevelop the iconic Esplanade site at Middleton Beach.

The City of Albany Mayor Dennis Wellington said he expected to receive the plans before Christmas and Council to consider the item at February meeting.

“City staff and Council have been interested in seeing the final concept plans from LandCorp. As a key stakeholder we have collaborated in the best interests of our community, and have been happy with the extensive consultation to date.

“We are pleased that we have been part of developing the plans, along with community, and once we have had an opportunity to review the full application including the new structure plan, the Council will open the item to community for final comments,” said Mayor Wellington.

LandCorp has opened registrations of Interest for potential developers interested in the site. The preferred concept plans are also available for review by community. Go to: <http://www.landcorp.com.au/Industrial-and-Commercial/Middleton-Beach-Albany/>
