## **2016/17 Annual Financial Budget**

### **Message from the Mayor**

The City of Albany's 2016/17 Budget recognises the current tight financial climate and some future economic uncertainty. Initially a 4.5% rate rise was moved by Council, however it has reduced this to 3.5% to align much closer with current economic trends.

Albany has advanced significantly as a regional city over the past 12 months and it is evident in the amount of infrastructure that has been completed and major works projects which remain ongoing.

The York Street upgrade was completed successfully and has transformed the upper section of the CBD's main street into a more user-friendly area, and the Centennial Sporting Precinct Redevelopment is continuing to transform our city's main recreational areas and sporting fields and facilities.

Albany is attracting a high level of interest from investors wishing to undertake developments in and around our city, and it is promising to see progress being made on the vacant Middleton Beach area and sale of lots in the Waterfront development area which will hopefully result in long-awaited and much-needed hotel developments in the not too distant future.

The National Anzac Centre continues to attract significant visitor interest and future plans for Albany Heritage Park has everyone excited. Plans for upgrades to the Albany Visitor Centre and Albany Town Hall are ongoing and will hopefully be realised within the next two years.

A tourism marketing campaign and rebranding of the region as a destination in partnership with the Denmark and Plantagenet councils through the Lower Great Southern Economic Alliance will change perceptions in the tourism market for the better and help grow and promote the region as a world-class place to visit and experience.

The formation of the Alliance between the three regional councils will advance regional co-operation between our local governments and it is without doubt the way of the future and everyone involved is looking forward to its continued development.

Albany is well placed to grow its position as a premier destination to visit, live, work and enjoy and grow for the future. We have great potential and now is the time to deliver on it.

**Dennis Wellington**  
**Mayor**

# **CITY OF ALBANY**

## **2016/17 Annual Financial Budget**

### **Message from the Chief Executive Officer**

#### **The 2016/17 Annual Budget**

Over the past financial year the City of Albany has proven to be a strong regional leader in innovative local governance, exploring collaborative strategies to address long-term growth and sustainability not only for Albany, but the region.

This is highlighted through resource-sharing arrangements with neighbouring councils, and the landmark implementation of the Lower Great Southern Economic Alliance to further the economic development and prosperity of the region.

The united approach to achieving regional outcomes is an exciting initiative and a regional destination marketing strategy by engaging industry stakeholders to create a unified brand that drives tourism growth and sells our unique attractions to visitors is a key project.

Building on the region's strengths and existing industries like tourism, agriculture and attracting new business and industries will also create new jobs and opportunities for residents and ratepayers and ensure the economic and social sustainability of our city.

With sustainability front of mind, the City of Albany will embark on a year of consolidation in its 2016/17 Budget, using existing staff resources to achieve the ongoing delivery of the high-level of services and facilities our community expects.

The total budget of \$103,839,718 proposes a modest rate rise of 3.5%. A rate rise of 4.5% was adopted by council in its 10-year financial plan, however it is considered a lesser rate rise this financial year that still ensures the City can continue its services and facilities was more prudent in the current economic climate.

Work on new and existing major projects will continue to provide the community with state-of-the-art facilities and infrastructure, while also remaining focussed on protecting our unique natural environment and attractions, and significant architectural heritage.

The Centennial Park Sporting Redevelopment remains the biggest current project in the City and the State Government's delivery of its remaining \$5.75 million funding commitment to the \$27 million stage 1 of the upgrade means work will remain on time and budget.

Working closely with LandCorp to progress the Middleton Beach development at the site of the old Esplanade Hotel and attract a hotel developer is another exciting project that will further transform our city and enhance the popular beachfront area.

It is also encouraging to see renewed interest in the Waterfront precinct which highlights the increased attention Albany is receiving from investors and developers in recent years.

While these major projects help develop our community and position our city for the future, we cannot neglect our day-to-day responsibility to maintain and improve existing infrastructure and services.

Staff will continue to explore funding opportunities to complement and add to the City's investment in the community.

Community outcomes are the City's priority and ensuring that this is achieved through our core values of remaining focused, united, accountable and proud.

## **CITY OF ALBANY**

### **2016/17 Annual Financial Budget**

I believe the 2016/17 Budget meets those values through a focus on community, embracing partnership opportunities, remaining accountable through sustainability and consolidation, while investing in projects that foster pride in Albany.

We can be very proud of Albany's achievements and the fantastic work that continues to create enthusiasm and optimism in our city's future and grow our wonderful community. These achievements will ensure Albany continues "to be Western Australia's most sought after and unique city to live, work and visit".

Along with the City of Albany Mayor, Dennis Wellington, I ask your support for the 2016/17 Annual Budget delivery.

**Andrew Sharpe**  
**Chief Executive Officer**

**CITY OF ALBANY**  
**2016/2017 Annual Financial Budget**

# **Notes to and Forming Part of the Budget**

# CITY OF ALBANY

## 2016/2017 Annual Financial Budget

### Note 1 – Significant Accounting Policies

The significant accounting policies which have been adopted in the preparation of this budget are:

#### (a) Basis of Preparation

The budget has been prepared in accordance with applicable Australian Accounting Standards (as they apply to local government and not-for-profit entities), Australian Accounting Interpretations, other authoritative pronouncements of the Australian Accounting Standards Board, the Local Government Act 1995 and accompanying regulations. Material accounting policies which have been adopted in the preparation of this budget are presented below and have been consistently applied unless stated otherwise.

Except for cash flow and rate setting information, the budget has also been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

#### The Local Government Reporting Entity

All Funds through which the City of Albany controls resources to carry on its functions have been included in the financial statements forming part of this budget.

In the process of reporting on the local government as a single unit, all transactions and balances between those Funds (for example, loans and transfers between Funds) have been eliminated.

All monies held in the Trust Fund are excluded from the financial statements. A separate statement of those monies appears at Note 20 to this budget document.

#### (b) 2015/16 Actual Balances

Balances shown in this budget as 2015/16 Actual are as forecast at the time of budget preparation and are subject to final adjustments.

#### (c) Rounding Off Figures

All figures shown in this budget, other than a rate in the dollar, are rounded to the nearest dollar.

#### (d) Rates, Grants, Donations and Other Contributions

Rates, grants, donations and other contributions are recognised as revenues when the local government obtains control over the assets comprising the contributions.

Control over assets acquired from rates is obtained at the commencement of the rating period or, where earlier, upon receipt of the rates.

#### (e) Goods and Services Tax

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position.

Cash flows are presented on a Gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

#### (f) Superannuation

The City of Albany contributes to a number of Superannuation Funds on behalf of employees. All funds to which the City of Albany contributes are defined contribution plans.

**CITY OF ALBANY**  
**2016/2017 Annual Financial Budget**

**Note 1 – Significant Accounting Policies (Cont'd)**

**(g) Cash and Cash Equivalents**

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks, other short term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and bank overdrafts.

Bank overdrafts are shown as short term borrowings in current liabilities in the statement of financial position.

**(h) Trade and Other Receivables**

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for goods sold and services performed in the ordinary course of business.

Receivables expected to be collected within 12 months of the end of the reporting period are classified as current assets. All other receivables are classified as non-current assets.

Collectability of trade and other receivables is reviewed on an ongoing basis. Debts that are known to be uncollectible are written off when identified. An allowance for doubtful debts is raised when there is objective evidence that they will not be collectible.

**(i) Inventories**

***General***

Inventories are measured at the lower of cost and net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

***Land Held for Resale***

Land purchased for development and/or resale is valued at the lower of cost and net realisable value. Cost includes the cost of acquisition, development, borrowing costs and holding costs until completion of development. Finance costs and holding charges incurred after development is completed are expensed.

Gains and losses are recognised in profit or loss at the time of signing an unconditional contract of sale if significant risks and rewards, and effective control over the land, are passed on to the buyer at this point.

Land held for resale is classified as current except where it is held as non-current based on Council's intentions to release for sale.

**(j) Fixed Assets**

Each class of fixed assets within either property, plant and equipment or infrastructure, is carried at cost or fair value as indicated less, where applicable, any accumulated depreciation and impairment losses.

***Initial Recognition and Measurement between Mandatory Revaluation Dates***

All assets are initially recognised at cost and subsequently revalued in accordance with the mandatory measurement framework detailed above.

In relation to this initial measurement, cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at no cost or for nominal consideration, cost is determined as fair value at the date of acquisition.

**CITY OF ALBANY**  
**2016/2017 Annual Financial Budget**

**Note 1 – Significant Accounting Policies (Cont'd)**

**(j) Fixed Assets (Cont'd)**

The cost of non-current assets constructed by the Council includes the cost of all materials used in construction, direct labour on the project and an appropriate proportion of variable and fixed overheads.

Individual assets acquired between initial recognition and the next revaluation of the asset class in accordance with the mandatory measurement framework detailed above, are carried at cost less accumulated depreciation as management believes this approximates fair value.

Individual assets acquired between initial recognition and the next revaluation of the asset class in accordance with the mandatory measurement framework detailed above, are carried at cost less accumulated depreciation as management believes this approximates fair value. They will be subject to subsequent revaluation at the next anniversary date in accordance with the mandatory measurement framework detailed above.

***Revaluation***

Increases in the carrying amount arising on revaluation of assets are credited to a revaluation surplus in equity. Decreases that offset previous increases of the same asset are recognised against revaluation surplus directly in equity. All other decreases are recognised in profit or loss.

***Land Under Roads***

In Western Australia, all land under roads is Crown land, the responsibility for managing which, is vested in the local government.

Effective as at 1 July 2008, City of Albany elected not to recognise any value for land under roads acquired on or before 30 June 2008. This accords with the treatment available in Australian Accounting Standard AASB 1051 Land Under Roads and the fact Local Government (Financial Management) Regulation 16(a)(i) prohibits local governments from recognising such land as an asset.

In respect of land under roads acquired on or after 1 July 2008, as detailed above, Local Government (Financial Management) Regulation 16(a)(i) prohibits local governments from recognising such land as an asset.

Whilst such treatment is inconsistent with the requirements of AASB 1051, Local Government (Financial Management) Regulation 4(2) provides, in the event of such an inconsistency, the Local Government (Financial Management) Regulations prevail.

Consequently, any land under roads acquired on or after 1 July 2008 is not included as an asset of the City of Albany.

**CITY OF ALBANY**  
**2016/2017 Annual Financial Budget**

**Note 1 – Significant Accounting Policies (Cont’d)**

**(j) Fixed Assets (Cont’d)**

***Depreciation***

The depreciable amount of all fixed assets including buildings but excluding freehold land, are depreciated on a straight-line basis over the individual asset’s useful life from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful life of the improvements.

Major depreciation periods are:

Buildings	
- Structure	50 to 100 years
- Fittings	10 to 20 years
Furniture and Equipment	4 to 10 years
Information Technology Equipment	3 to 5 years
Plant and Equipment	4 to 15 years
Sealed roads and streets	
formation	not depreciated
pavement	50 years
seal	
- bituminous seals	20 years
Gravel roads	
formation	not depreciated
pavement	50 years
Formed roads	
formation	not depreciated
pavement	50 years
Footpaths	20 to 50 years
Bridges	100 years
Drainage	50 to 100 years
Parks & Gardens	5 to 100 years

The assets residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset’s carrying amount is written down immediately to its recoverable amount if the asset’s carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in profit or loss in the period which they arise.

**CITY OF ALBANY**  
**2016/2017 Annual Financial Budget**

**Note 1 – Significant Accounting Policies (Cont'd)**

**(j) Fixed Assets (Cont'd)**

**Capitalisation Threshold**

The City of Albany has adopted the following thresholds for the recognition of assets within the accounts. Any expenditure below this threshold is treated as an operating expenditure.

Land	Nil
Furniture & Equipment	\$2,500.00
Plant	\$2,500.00
Software	\$8,000.00
Land & Buildings	\$10,000.00
Infrastructure	\$15,000.00

**(k) Fair Value of Assets and Liabilities**

When performing a revaluation, the Council uses a mix of both independent and management valuations using the following as a guide:

Fair Value is the price that Council would receive to sell the asset or would have to pay to transfer a liability, in an orderly (i.e. unforced) transaction between independent, knowledgeable and willing market participants at the measurement date.

As fair value is a market-based measure, the closest equivalent observable market pricing information is used to determine fair value. Adjustments to market values may be made having regard to the characteristics of the specific asset. The fair values of assets that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data.

To the extent possible, market information is extracted from either the principal market for the asset (i.e. the market with the greatest volume and level of activity for the asset or, in the absence of such a market, the most advantageous market available to the entity at the end of the reporting period (i.e. the market that maximises the receipts from the sale of the asset after taking into account transaction costs and transport costs).

For non-financial assets, the fair value measurement also takes into account a market participant's ability to use the asset in its highest and best use or to sell it to another market participant that would use the asset in its highest and best use.

***Fair Value Hierarchy***

AASB 13 requires the disclosure of fair value information by level of the fair value hierarchy, which categorises fair value measurement into one of three possible levels based on the lowest level that an input that is significant to the measurement can be categorised into as follows:

**Level 1**

Measurements based on quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.

**Level 2**

Measurements based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.

**CITY OF ALBANY**  
**2016/2017 Annual Financial Budget**

**Note 1 – Significant Accounting Policies (Cont'd)**

**(k) Fair Value of Assets and Liabilities (Cont'd)**

***Fair Value Hierarchy (Cont'd)***

**Level 3**

Measurements based on unobservable inputs for the asset or liability.

The fair values of assets and liabilities that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data. If all significant inputs required to measure fair value are observable, the asset or liability is included in Level 2. If one or more significant inputs are not based on observable market data, the asset or liability is included in Level 3.

***Valuation techniques***

The Council selects a valuation technique that is appropriate in the circumstances and for which sufficient data is available to measure fair value. The availability of sufficient and relevant data primarily depends on the specific characteristics of the asset or liability being measured. The valuation techniques selected by the Council are consistent with one or more of the following valuation approaches:

**Market approach**

Valuation techniques that use prices and other relevant information generated by market transactions for identical or similar assets or liabilities.

**Income approach**

Valuation techniques that convert estimated future cash flows or income and expenses into a single discounted present value.

**Cost approach**

Valuation techniques that reflect the current replacement cost of an asset at its current service capacity.

Each valuation technique requires inputs that reflect the assumptions that buyers and sellers would use when pricing the asset or liability, including assumptions about risks. When selecting a valuation technique, the Council gives priority to those techniques that maximise the use of observable inputs and minimise the use of unobservable inputs. Inputs that are developed using market data (such as publicly available information on actual transactions) and reflect the assumptions that buyers and sellers would generally use when pricing the asset or liability and considered observable, whereas inputs for which market data is not available and therefore are developed using the best information available about such assumptions are considered unobservable.

The mandatory measurement framework imposed by the Local Government (Financial Management) Regulations requires, as a minimum, all assets to be revalued at least every 3 years. Relevant disclosures, in accordance with the requirements of Australian Accounting Standards have been made in the budget as necessary.

**CITY OF ALBANY**  
**2016/2017 Annual Financial Budget**

**Note 1 – Significant Accounting Policies (Cont'd)**

**(I) Financial Instruments**

**Initial Recognition and Measurement**

Financial assets and financial liabilities are recognised when the City of Albany becomes a party to the contractual provisions to the instrument. For financial assets, this is equivalent to the date that the City of Albany commits itself to either the purchase or sale of the asset (ie trade date accounting is adopted).

Financial instruments are initially measured at fair value plus transaction costs, except where the instrument is classified 'at fair value through profit or loss', in which case transaction costs are expensed to profit or loss immediately.

**Classification and Subsequent Measurement**

Financial instruments are subsequently measured at fair value, amortised cost using the effective interest rate method, or cost.

Amortised cost is calculated as:

- (a) the amount in which the financial asset or financial liability is measured at initial recognition;
- (b) less principal repayments and any reduction for impairment; and;
- (c) plus or minus the cumulative amortisation of the difference, if any, between the amount initially recognised and the maturity amount calculated using the effective interest rate method.

The effective interest method is used to allocate interest income or interest expense over the relevant period and is equivalent to the rate that discounts estimated future cash payments or receipts (including fees, transaction costs and other premiums or discounts) through the expected life (or when this cannot be reliably predicted, the contractual term) of the financial instrument to the net carrying amount of the financial asset or financial liability. Revisions to expected future net cash flows will necessitate an adjustment to the carrying value with a consequential recognition of an income or expense in profit or loss.

*(i) Financial assets at fair value through profit and loss*

Financial assets are classified at "fair value through profit or loss" when they are held for trading for the purpose of short term profit taking. Assets in this category are classified as current assets. Such assets are subsequently measured at fair value with changes in carrying amount being included in profit or loss.

*(ii) Loans and receivables*

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and are subsequently measured at amortised cost. Gains or losses are recognised in profit or loss.

Loans and receivables are included in current assets where they are, expected to mature within 12 months after the end of the reporting period.

*(iii) Held-to-maturity investments*

Held-to-maturity investments are non-derivative financial assets with fixed maturities and fixed or determinable payments that the City of Albany's management has the positive intention and ability to hold to maturity. They are subsequently measured at amortised cost. Gains or losses are recognised in profit or loss.

Held-to-maturity investments are included in current assets where they are expected to mature within 12 months after the end of the reporting period. All other investments are classified as non-current.

# CITY OF ALBANY

## 2016/2017 Annual Financial Budget

### Note 1 – Significant Accounting Policies (Cont'd)

#### (I) Financial Instruments (Cont'd)

##### *(iv) Available-for-sale financial assets*

Available-for-sale financial assets are non-derivative financial assets that are either not suitable to be classified into other categories of financial assets due to their nature, or they are designated as such by management. They comprise investments in the equity of other entities where there is neither a fixed maturity nor fixed or determinable payments.

They are subsequently measured at fair value with changes in such fair value (i.e. gains or losses) recognised in other comprehensive income (except for impairment losses). When the financial asset is derecognised, the cumulative gain or loss pertaining to that asset previously recognised in other comprehensive income is reclassified into profit or loss.

Available-for-sale financial assets are included in current assets, where they are expected to be sold within 12 months after the end of the reporting period. All other available for sale financial assets are classified as non-current.

##### *(v) Financial liabilities*

Non-derivative financial liabilities (excluding financial guarantees) are subsequently measured at amortised cost. Gains or losses are recognised in the profit or loss.

#### **Impairment**

A financial asset is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events (a "loss event") having occurred, which has an impact on the estimated future cash flows of the financial asset(s).

In the case of available-for-sale financial assets, a significant or prolonged decline in the market value of the instrument is considered a loss event. Impairment losses are recognised in profit or loss immediately. Also, any cumulative decline in fair value previously recognised in other comprehensive income is reclassified to profit or loss at this point.

In the case of financial assets carried at amortised cost, loss events may include: indications that the debtors or a group of debtors are experiencing significant financial difficulty, default or delinquency in interest or principal payments; indications that they will enter bankruptcy or other financial reorganisation; and changes in arrears or economic conditions that correlate with defaults.

For financial assets carried at amortised cost (including loans and receivables), a separate allowance account is used to reduce the carrying amount of financial assets impaired by credit losses. After having taken all possible measures of recovery, if management establishes that the carrying amount cannot be recovered by any means, at that point the written-off amounts are charged to the allowance account or the carrying amount of impaired financial assets is reduced directly if no impairment amount was previously recognised in the allowance account.

#### **Derecognition**

Financial assets are derecognised where the contractual rights for receipt of cash flows expire or the asset is transferred to another party, whereby the City of Albany no longer has any significant continual involvement in the risks and benefits associated with the asset.

Financial liabilities are derecognised where the related obligations are discharged, cancelled or expired. The difference between the carrying amount of the financial liability extinguished or transferred to another party and the fair value of the consideration paid, including the transfer of non-cash assets or liabilities assumed, is recognised in profit or loss.

**CITY OF ALBANY**  
**2016/2017 Annual Financial Budget**

**Note 1 – Significant Accounting Policies (Cont'd)**

**(m) Impairment of Assets**

In accordance with Australian Accounting Standards the City of Albany's assets, other than inventories, are assessed at each reporting date to determine whether there is any indication they may be impaired.

Where such an indication exists, an impairment test is carried out on the asset by comparing the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, to the asset's carrying amount.

Any excess of the asset's carrying amount over its recoverable amount is recognised immediately in profit or loss, unless the asset is carried at a revalued amount in accordance with another standard (e.g. AASB 116) whereby any impairment loss of a revalued asset is treated as a revaluation decrease in accordance with that other standard.

For non-cash generating assets such as roads, drains, public buildings and the like, value in use is represented by the depreciated replacement cost of the asset.

At the time of adopting this budget, it is not possible to estimate the amount of impairment losses (if any) as at 30 June 2017.

In any event, an impairment loss is a non-cash transaction and consequently, has no impact on this budget document.

**(n) Trade and Other Payables**

Trade and other payables represent liabilities for goods and services provided to the City of Albany prior to the end of the financial year that are unpaid and arise when the City of Albany becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured, are recognised as a current liability and are normally paid within 30 days of recognition.

**(o) Employee Benefits**

**Short-Term Employee Benefits**

Provision is made for the Council's obligations for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Council's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the statement of financial position. The Council's obligations for employees' annual leave and long service leave entitlements are recognised as provisions in the statement of financial position.

**CITY OF ALBANY**  
**2016/2017 Annual Financial Budget**

**Note 1 – Significant Accounting Policies (Cont'd)**

**(o) Employee Benefits (Cont'd)**

**Other Long-Term Employee Benefits**

Provision is made for employees' long service leave entitlements not expected to be settled wholly within 12 months after the end of the annual reporting period in which the employees render the related service. Other long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations or service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any re-measurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur.

The Council's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the Council does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

**(p) Borrowing Costs**

Borrowing costs are recognised as an expense when incurred except where they are directly attributable to the acquisition, construction or production of a qualifying asset. Where this is the case, they are capitalised as part of the cost of the particular asset until such time as the asset is substantially ready for its intended use or sale.

**(q) Provisions**

Provisions are recognised when the City of Albany has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

**(r) Leases**

Leases of fixed assets where substantially all the risks and benefits incidental to the ownership of the asset, but not legal ownership, are transferred to the Council, are classified as finance leases.

Finance leases are capitalised recording an asset and a liability at the lower amounts equal to the fair value of the leased property or the present value of the minimum lease payments, including any guaranteed residual values. Lease payments are allocated between the reduction of the lease liability and the lease interest expense for the period.

Leased assets are depreciated on a straight line basis over the shorter of their estimated useful lives or the lease term.

Lease payments for operating leases, where substantially all the risks and benefits remain with the lessor, are charged as expenses in the periods in which they are incurred.

Lease incentives under operating leases are recognised as a liability and amortised on a straight line basis over the life of the lease term.

**CITY OF ALBANY**  
**2016/2017 Annual Financial Budget**

**Note 1 – Significant Accounting Policies (Cont'd)**

**(s) Interests in Joint Arrangements**

Joint arrangements represent the contractual sharing of control between parties in a business venture where unanimous decisions about relevant activities are required.

Separate joint venture entities providing joint venturers with an interest to net assets are classified as a joint venture and accounted for using the equity method. Refer to note 1(o) for a description of the equity method of accounting.

Joint venture operations represent arrangements whereby joint operators maintain direct interests in each asset and exposure to each liability of the arrangement. The Council's interests in the assets, liabilities, revenue and expenses of joint operations are included in the respective line items of the financial statements. Information about the joint ventures is set out in Note 17.

**(t) Current and Non-Current Classification**

In the determination of whether an asset or liability is current or non-current, consideration is given to the time when each asset or liability is expected to be settled. The asset or liability is classified as current if it is expected to be settled within the next 12 months, being the City of Albany's operational cycle. In the case of liabilities where the City of Albany does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current even if not expected to be realised in the next 12 months except for land held for resale where it is held as non-current based on the City of Albany's intentions to release for sale.

**(u) Comparative Figures**

Where required, comparative figures have been adjusted to conform with changes in presentation for the current budget year.

**(v) Budget Comparative Figures**

Unless otherwise stated, the budget comparative figures shown in this budget document relate to the original budget estimate for the relevant item of disclosure.

**CITY OF ALBANY**  
**2016/2017 Annual Financial Budget**

**Note 2 – Reporting – Program Descriptions**

**Description of Programs**

**GOVERNANCE**

**Objective:**

To provide a decision making process for the efficient allocation of scarce resources.

**Activities:**

Includes the activities of members of the council and the administrative support available to the council for the provision of governance of the district. Other costs relate to the task of assisting elected members and ratepayers on matters which do not concern specific council services.

**GENERAL PURPOSE FUNDING**

**Objective:**

To collect revenue to allow for the provision of services.

**Activities:**

Rates, general purpose government grants and interest revenue.

**LAW, ORDER AND PUBLIC SAFETY**

**Objective:**

To provide services to help ensure a safer and environmentally conscious community.

**Activities:**

Supervision and enforcement of various local laws relating to fire prevention, animal control and other aspects of public safety including emergency services.

**HEALTH**

**Objective:**

To provide an operational framework for environmental and community health.

**Activities:**

Inspection of food outlets and their control, provision of meat inspection services, noise control and waste disposal compliance.

**EDUCATION AND WELFARE**

**Objective:**

To provide services to disadvantaged persons, the elderly, children and youth.

**Activities:**

Elderly person's activities and support, community services planning, disabled persons, youth services, aboriginal services, playgroup, pre-schools and other welfare and voluntary persons.

**COMMUNITY AMENITIES**

**Objective:**

To provide services required by the community.

**Activities:**

Refuse collection services, including recycling, greenwaste and hardwaste. Operation of tip facilities, administration of the Town Planning Scheme, public amenities and urban stormwater drainage works. Protection of the environment, coastline and waterways. Environmental planning.

**CITY OF ALBANY**  
**2016/2017 Annual Financial Budget**

**Note 2 – Reporting – Program Descriptions**

**Description of Programs (Cont'd)**

**RECREATION AND CULTURE**

**Objective:**

To establish and effectively manage infrastructure and resource which will help the social well being of the community.

**Activities:**

Maintenance of halls, recreation and cultural facilities, including sportsgrounds, parks, gardens, reserves, playgrounds and foreshore amenities. Maintenance of boat ramps and jetties. Townscape works. Operation of the Library, Albany Leisure Centre, Vancouver, Art Centre, and other cultural activities.

**TRANSPORT**

**Objective:**

To provide safe, effective and efficient transport services to the community.

**Activities:**

Construction & maintenance of roads, drainage, footpaths, bridges, and traffic signs. Maintenance of pump stations and road verges. Strategic planning for transport and traffic flows. Street lighting and street cleaning. Airport operation. Parking control and car park maintenance.

**ECONOMIC SERVICES**

**Objective:**

To help promote the city and its economic well being.

**Activities:**

Tourism and area promotion, operation of the Visitor Centre, Albany Heritage Park, Sister City expenses, City marketing and economic development, implementation of building control.

**OTHER PROPERTY AND SERVICES**

**Objective:**

To monitor and control council's overheads operating accounts.

**Activities:**

Private works operation, plant repair, public works overhead, administration overheads, land acquisition (including town planning schemes) and subdivision development and sales.

**CITY OF ALBANY**  
**2016/2017 Annual Financial Budget**

**Note 4 – Rating & Valuations**

**4a) Rates**

**An Overview**

The rating system is the means by which the City is able to raise sufficient revenue to pay for the services it provides. The methodology is designed to ensure that all property owners make a reasonable rate contribution, taking into account an owner's ability to pay, and ensuring that no sector is rated excessively. Throughout Australia, rating on the basis of property valuations has been found to be the most appropriate means of achieving rating equity.

**Dual Rating**

The two types of property valuation systems available for the purposes of rating are Unimproved Valuations (UVs) and Gross Rental Valuations (GRVs). Both types of property valuations are supplied to the City by Landgate (formerly the Valuer General's Office). It is generally accepted that the most equitable distribution of rates is achieved when Gross Rental Valuations are applied in non-rural areas and Unimproved Valuations are applied in rural areas.

In accordance with Section 6.32 of the Local Government Act 1995, a local government is to impose a general rate and to be rated on Gross Rental Value and a General Rate for Unimproved Value on rateable land within its district.

The City of Albany applies

i) Rating Category 1 – GRV General

Rating Category 1 includes all GRV rateable land.

A rate in the dollar of 10.5755 cents on the current Gross Rental Values for the 2016/2017 financial year on Rating Category 1 GRV will apply and generate \$28,000,105 in income.

ii) Rating Category 3 – UV

Rating Category 3 includes all UV rateable land.

A rate in the dollar of 0.4251 cents on the current Unimproved Values for the 2016/2017 financial year on Rating Category 3 UV will apply and generate \$2,798,459 in income.

**4b) Minimum Rates**

**Minimum Payments**

In accordance with Section 6.35 of the Local Government Act 1995, a local government may impose on rateable land a minimum payment that is greater than the general rate that would otherwise be payable on that land. The City applies minimum payments to the valuation method of GRV (\$968) and to UV (\$1045) to ensure that all property owners contribute an equitable amount of rates towards the provision of the City's maintenance of facilities and services provided.

The object and reason for the minimum rate is to ensure that all property owners are levied an equitable amount for services provided.

**CITY OF ALBANY**  
**2016/2017 Annual Financial Budget**

**Note 4 – Rating & Valuations (Cont'd)**

**4c) Incentives, Concessions and Waivers**

Incentives:

An incentive in the form of a \$2,500 cash prize from the Commonwealth Bank of Australia is offered to encourage early payment. The following terms and conditions apply to the 2016/2017 early payment of rates incentive prize:

- To be eligible for the draw all outstanding rates must be received 21 days after the date of issue of the rate notice, single payment option only.
- Entry is open to each individual assessment.

Concessions

Ratepayers who are registered in accordance with the Rates and Charges (Rebates and Deferments) Act 1992 are eligible for a concession up to 50% of the General Rate, in line with the conditions set out under that Act.

Waivers:

In respect to the Late Payment Interest Charge on rates and charges, the method of calculating the interest charge is on the daily balance outstanding. There are instances where a small balance remains on the property assessment. This may have occurred due to a delay in the receipt of mail payments or monies from property settlements etc., and additional daily interest has accumulated. Amounts outstanding of \$5 and under will be waived, as it is not considered cost effective or equitable to recover from the new property owner. Estimated loss of revenue from this waiver is \$1,100.

**4d) Instalment Options**

The person liable for the payment of a rate service in the 2016/2017 financial year may elect to make the payment by:

- |  |                                 |
|--|---------------------------------|
| • First Instalment payment or payment in full. | 15 <sup>th</sup> September 2016 |
| • Second Instalment.                           | 15 <sup>th</sup> November 2016  |
| • Third Instalment.                            | 16 <sup>th</sup> January 2017   |
| • Final Instalment.                            | 16 <sup>th</sup> March 2017     |

An instalment fee is applicable and consists of an administration fee of \$6.00 for the second and each subsequent instalment together with a calculated interest component. The interest rate of 5.5% per annum will be calculated on a daily basis at 0.0151% by simple interest basis from the due date of the first instalment to the due date of each respective instalment. It is estimated revenue of \$205,000 will be generated from these charges in 2016/2017. Early payment of an instalment will not affect the calculation of the instalment fee.

Late payment penalty interest will be applicable on overdue instalments – see Note (4e) Penalty Interest.

**CITY OF ALBANY**  
**2016/2017 Annual Financial Budget**

**Note 4 – Rating & Valuations (Cont'd)**

**4e) Penalty Interest**

Interest at a rate of 11% per annum will be calculated daily at 0.0301% by simple interest basis for the number of days from the due date until the day before the day on which payment is made. Interest will apply to any rate or service charge, inclusive of instalments, after it becomes due and payable, i.e. 35 days after the date of issue of the rate notice. Arrears interest will begin to accrue at 1<sup>st</sup> July 2016 on all rates and/or charges, including previous interest charges that remain in arrears. Interest charges are not applicable to eligible pensioners & seniors. It is estimated revenue of \$155,000 will be generated from penalty interest in 2016/2017.

**4f) Refuse Collection and Recycling**

The refuse collection charges as set out below will apply for the 2016/2017 financial year and will generate \$4,829,206 in revenue. The charges include the provision for one bulk green waste collection and one bulk hard waste collection. (Not applicable to non residential and vacant land properties).

**Mobile Garbage Bins Residential Including Fortnightly Recycling and Monthly Green Waste**

Full Domestic Refuse Service		\$329.00
- Refuse Collection 140 Ltr MGB	Weekly	
- Recycling Collection 240 Ltr MGB	Fortnightly	
- Green Waste Collection 240Ltr MGB	Monthly	
Additional Services (Maximum of One) with a full domestic rubbish service.		
- Refuse Collection 140 Ltr MGB (Inc GST)	Weekly	\$ 97.00
- Recycling Collection 240 Ltr MGB (Inc GST)	Fortnightly	\$ 46.80
- Green Waste Collection 240Ltr MGB (Inc GST)	Monthly	\$ 46.80
Additional Full Domestic Refuse Service (Inc GST)		\$360.00

*Note: A 10% GST charge to the ratepayer will apply if the refuse collection service charge is not a component of the annual waste management charges, as adopted by Council in accordance with the Waste Avoidance and Resource Recovery Act 2007, eg collection charges for one off or special events will incur GST.*

**CITY OF ALBANY**  
**2016/2017 Annual Financial Budget**

**Note 4 – Rating & Valuations (Cont'd)**

**4f) Refuse Collection and Recycling**

**Waste Facilities Maintenance Rate (Section 66(1) Waste Avoidance and Resource Recovery Act 2007)**

In addition to the full domestic refuse service the City will be raising an annual rate under section 66(1) of the Waste Avoidance and Resource Recovery Act 2007 (WARR Act) and, in accordance section 66(3) of the WARR Act, apply the minimum payment provisions of section 6.35 of the Local Government Act 1995. The rate is proposed to be called the 'Waste Facilities Maintenance Rate'. The minimum payment will be \$55.

The proposed rates are:

GRV General Properties – Rate in the dollar: 0.01 Cents, minimum \$55

A rate in the dollar of 0.01 cents on the current Gross Rental Values for the 2016/2017 financial year on Rating Category 1 GRV General with a minimum of \$55.00 will apply and generate \$923,188 in income.

UV General Properties – Rate in the dollar: 0.0022Cents, minimum \$55

A rate in the dollar of 0.0022 cents on the current Unimproved Values for the 2016/2017 financial year on Rating Category 3 UV with a minimum of \$55.00 will apply and generate \$91,553 in income.
