**LGA comments:**

The Merrifield Park Tennis facilities are in need of major upgrades on courts three and four to address continual cracking of the top surface. Additional resurfacing of courts three and four would not address the obvious failure of the courts sub base.

Courts one and two are in far better condition apart from the run off areas at the back of the service lines which have been affected by tree root invasion. The clubs application is to rectify these areas with a view to make them less of a hazard for tripping etc.

The club is to be commended for their application in this regard.

If the City did have the funding to support this application it would provide two playing surfaces of a higher standard. It would not address the fact that the other two courts would further deteriorate over time.

The medium to long term planning for Tennis in the City of Albany would be for an amalgamation of at least two of the three larger clubs to create a new regional tennis facility.

The Department of Sport and Recreation, Tennis West, Merrifield Park Tennis Club and the City of Albany support this approach.

The City would rank this application 1 from 1 and request DSR support the application provided it could contribute two thirds funding from its own reserves.
