**18.1: NOTICE OF MOTION FROM COUNCILLOR BOSTOCK**

**THAT when the final draft of TPS 1 is endorsed by Council, it shall not include any rezoning of freehold land into a category less advantageous to the owner than already exists in the current TPS1(a) or TPS3, without prior specific written agreement from the owner. Examples include the rezoning of land from the “Rural” to “Conservation” classification, or to “Parks and Recreation from any other category.**

**Councillor’s Reason:**

Approximately 92% of the land in WA is vested in the Crown, with only 8% of land alienated.

Private individuals have bought this 8% in good faith, with funds upon which they have already paid tax and the government of the day accepted and spent those funds. The current owners, therefore, have a legitimate expectation that the present government will respect their right to retain the land with the same uses as when it was purchased and any attempt to diminish that use represents a serious breach of contract.

There may be an argument for compulsory purchase of land if an urgent and immediate public benefit can be demonstrated, but even then it should be used only in exceptional circumstances and following fair compensation.

The changing of an existing zone on alienated land to one which restricts its use to a greater extent than the existing category represents a form of compulsory purchase which is underhand, unfair and against natural justice and should not be allowed to proceed in any state which prides itself on the freedom of its citizens.
