

SAVE THE PINES

@ MIDDLETON BEACH

For immediate attention of the Albany City Council,

Ph: 0457496402

YANA APPLETON
660 LOWER KING ROAD
LOWER KING WA 6330

We, the undersigned, wish for the council to re-evaluate the destruction of the 9 Norfolk Pine Trees as outlined in the image below. As concerned members of the public we are asking for transparency and public consultation. We request for the reports underlining the health of these trees to be made public and that if they absolutely cannot be left where they are, that they be possibly transplanted instead of mulched, which happened with a similar project two years ago in Perth which resulted in Norfolk Pines being successfully relocated to Alkimos. It is essential that there is full public consultation on the matter.

Thank you

Albany Community	Albany, Australia	2020-11-04	"The pines are a beautiful part of Middleton Beach, they should be looked after and respected."
Chris Bellanger	Albany, Australia	2020-11-04	"The pines are part of Middleton Beach and much valued by many. Surely there is another solution! The retention of old buildings and trees set Albany apart from other towns. Maybe the City has blinkers on to their value."
Casey Grogan	Perth, Australia	2020-11-05	"No way. These trees are iconic."
Jane Hanbury	Perth, Australia	2020-11-05	"The trees ♦ have been there along time they look beautiful please don't take them down it will look bare !!!"
Laura Rice	Australia	2020-11-05	"Not only are these trees doing an amazing and incredibly important ant role of drawing carbon from the air and putting it into the earth (especially at these crunching times!) but they hold so many childhood memories of mine and many. The fronds always an instigator of play and imagination. It would be a very sad day indeed if they were to be chopped down. And what for? Why change something that is perfect?"

Amanda Trafford	Brisbane, Australia	2020-11-07	"I would like to see the qualifications of all the councillors who wish to remove these trees - trees which are worth a thousand councillors. What foolish decisions must we all keep wasting our time on because people who have the power to destroy the environment don't act ethically and just make decisions based on money."
Simon Devenish	Albany, Australia	2020-11-07	"This seems to be a systematic and deliberate ongoing and unnecessary reshaping that is being made in the name of cultural change. I believe we should honour the decisions of those who chose to plant these specimens some many years ago. According to my quick Google check Norfolk pines will live for about 150 years. So for these trees time is not up. For those who have been fortunate enough to have travelled in Australia this type of pine is in many welcoming beach towns. Albany Council please honour the past and preserve the future for all of our children."
