CCS730: AUTHORISING OFFICER RECOMMENDATION

THAT Council APPROVE a new lease to St John Ambulance Western Australia Ltd for the patient transfer station at the Albany Regional Airport, subject to the terms and conditions outlined in section 13 of this report.

BACKGROUND

2. In 2005 the City entered into a lease with St John Ambulance Association of WA Inc to support Royal Flying Doctor Service operations at the airport by providing first aid and patient transfer services at the airport.
3. A lease variation in May 2015 allowed the service to relocate within the airport precinct, as the original station no longer met operational needs. The variation also included an agreement to end the current lease once the new facility was ready and then a new lease could be put in place for the new location.
4. In 2017, the City constructed a new patient transfer station as part of a major infrastructure project supported by Regional Aviation Access Program (RAAP) funding from the State Government. The City retains ownership of the building.
5. A new lease commenced on 1 November 2017 for a term expiring on 30 May 2025, with a lease area of approximately 247m² and rent based on market valuation.
6. St John Ambulance has formally requested a new lease to continue operating the patient transfer station at the airport.

DISCUSSION

7. The current rent of \$6,008.80 + GST per annum was originally based on a market valuation at the time the lease commenced in 2017.
8. Under the City's Property Management (Leases and Licences) Policy, rent for community and not-for-profit organisations occupying City owned buildings is the equivalent to the annual minimum rate set by Council each year, currently \$1,222 + GST.
9. The proposed new lease rent of this minimum rate is in line with the policy. This approach ensures consistency and equity across the City's leasing portfolio for community service providers.
10. The patient transfer station supports the safe transfer of patients from Albany and surrounding regions to other health services across the state.
11. St John Ambulance is the only provider of ambulance services in Albany.
12. The City's Airport Management Team has been consulted and supports the proposed new lease term of five years with a five-year option.
13. The table below summaries the key terms of the proposed lease.

Land Description	Lot 214 on Deposited Plan 402105 the subject of Certificate of Title Volume 2861 Folio 954

14. The tenant has agreed in principle to the above terms, pending Council approval.

GOVERNMENT & PUBLIC CONSULTATION

15. Section 3.58 of the *Local Government Act 1995* governs property disposal, including leases.
16. Clause 30(2)(c) of the *Local Government (Functions and General) Regulations 1996* exempts certain disposal from public notice, including those to charitable, not-for-profit organisations.

19. The proposed new lease complies with the statutory requirements for property disposal.

POLICY IMPLICATIONS

20. The City's Property Management (Leases and Licences) Policy aims to support equitable access, and the efficient management of City owned and managed properties in line with statutory procedures.
21. The recommendation is consistent with the policy.

RISK IDENTIFICATION & MITIGATION

22. The risk identification and categorisation relies on the City's Enterprise Risk and Opportunity Management Framework.

Risk	Likelihood	Consequence	Risk Analysis	Mitigation
Reputation: New lease not approved – interruption to patient transfer services.	Unlikely	Severe	High	Prioritise negotiations to ensure continuity of services.
Reputation: New lease not approved – negative impact on City reputation.	Unlikely	Major	Medium	Continue to work collaboratively to reach agreement.
Opportunity: To continue providing patient transfer services to Albany and surrounding regions at the airport.				
Opportunity: The lease aligns with the City's Strategic Community Plan 2032 objective to improve access to quality health facilities, services and programs to achieve good general and mental health in the community.				

FINANCIAL IMPLICATIONS

23. All costs associated with the development, execution and completion of the new lease documentation will be met by the tenant.

LEGAL IMPLICATIONS

24. The lease documentation will be prepared by City legal to ensure enforceable terms that minimise any risk to the City.

ENVIRONMENTAL CONSIDERATIONS

25. There are no identified environmental considerations related to this report.

ALTERNATE OPTIONS

26. Council may:
 - a. Approve the proposed new lease;
 - b. Support some selected elements of the new lease with amended terms;
 - c. Decline the request for a new lease.
27. Should Council decline the new lease, St John Ambulance will be required to vacate the premises and remove their equipment.
28. Patient air transfer services at the Albany Airport may be disrupted.
29. The City may choose to initiate an Expression of Interest (EOI) process to identify a new suitable tenant.

CONCLUSION

30. The current tenant, St John Ambulance, has requested a new lease term of 5 years with a 5-year option to continue operating the patient transfer station at Albany Airport beyond the current lease expiry on 30 May 2025.
31. St John Ambulance provides an essential service for Albany and the wider region and has complied with all obligations under the current lease.
32. It is recommended the proposed new lease be approved to support the continued provision of patient transfer services for the community.

CARRIED 9-1

Record of Vote

Against the Motion: Councillor MacLaren

CCS731: AUTHORISING OFFICER RECOMMENDATION

THAT Council, in pursuance of Schedule 2, clause 4 of the Planning and Development (Local Planning Schemes) Regulations 2015, resolves to endorse draft Local Planning Policy 3.2 – Renewable Energy Facilities for the purpose of advertising.

BACKGROUND

4. The Western Australian Planning Commission (WAPC) State Planning Strategy 2050 promotes the implementation of renewable energy initiatives.
5. Renewable energy facilities in WA are principally wind turbine and solar array systems. Other systems can include geothermal, biogas, ocean power and hydro-electric power for on-grid and off-grid locations.
6. Renewable energy facilities can enhance local economies, connecting into the existing network. The growth in the number, size, and complexity of renewable energy facilities is expected to continue as energy generation and other traditional industries decarbonise their facilities and operations.
7. The contribution that renewable energy facilities make to the reduction in carbon emissions is also an important consideration for the growth of the industry, as well as the socio-economic benefits to the State.
8. The Western Australian Planning Commission's *Position Statement: Renewable Energy Facilities* provides guidance for proponents, local governments, relevant agencies and stakeholders on the relevant matters to be considered in the preparation and consideration of proposals for renewable energy facilities.
9. Growing awareness by communities of the potential impacts (either positive or negative) from renewable energy facilities, requires state and local government planning frameworks provide suitable policy and guidance on the appropriate location, siting, design and management measures for proposals to ensure balanced outcomes that benefit the locality can be achieved.
10. To support fair and consistent community benefit-sharing practices for large-scale renewable energy projects across Western Australia, the State Government—through the Department of Energy, Mines, Industry Regulation and Safety—has released a Draft Guideline for Community Benefits for Renewable Energy Projects for public consultation.
11. This initiative complements existing resources, such as the Clean Energy Council's Guide to Benefit Sharing Options for Renewable Energy Projects.
12. Officers prepared a survey to seek feedback on key considerations for renewable energy facilities and inform the preparation of the draft LPP3.2.
13. Five responses were received with feedback incorporated into the draft policy provisions. Survey responses are available in the Councillor Workstation.

DISCUSSION

14. Development proposals for renewable energy facilities are permitted in certain zones in accordance with Table 3 of LPS2.
15. Officers have prepared draft LPP3.2 to guide the assessment of proposals for renewable energy facilities where permitted in accordance with the applicable zoning and land use provisions outlined under LPS2.
16. The scope of draft LPP3.2 applies to larger scale renewable energy facilities land use proposals (as defined under LPS2) including premises, structures and equipment that are used to generate energy from a renewable source (such as biogas, wind, wave or solar) predominantly for export and consumption offsite.

17. The scope of draft LPP3.2 does not apply to operational activities or works that involve renewable power generation facilities or equipment for onsite consumption purposes only (such as solar panels or domestic wind turbines), as these are already addressed via other development provisions across the state and local planning frameworks.
18. To ensure renewable energy facility proposals are compatible with surrounding land uses, draft LPP3.2 requires proposals to demonstrate:
 - The renewable energy facility will not result in the fragmentation of productive agricultural land through subdivision.
 - The renewable energy facility will not reduce the potential or viability of agricultural activities on priority agriculture zoned land.
 - The renewable energy facility will not unreasonably interfere with existing lawful use of neighbouring land.

19. Other key matters addressed under draft LPP3.2 include:

Mitigation measures to manage amenity impacts:

20. Proponents required to demonstrate that the development will have minimal, or otherwise acceptable visual impact on the property or surrounding locality, particularly in high amenity areas, including the preparation of a visual impact assessment when required.
21. Establishing a baseline setback of 1km for wind energy systems with associated guidance on circumstances where greater setbacks may be required to address adverse impacts likely to impact the enjoyment of the surrounding land.
22. The draft policy suggests height restrictions contained within LPS2 may be varied for wind energy systems to allow for these systems to function properly, with appropriate heights to be informed by a Visual Impact Assessment and consultation with adjoining property owners and the community.

Consultation and stakeholder engagement:

23. Proponents are encouraged to undertake their own consultation with the community and key stakeholders, prior to submission of a formal proposal. A summary of the pre-lodgement consultation to be included with the development application.
24. Notwithstanding the permissibility of the land use within the designated zoning, or pre-lodgement consultation activities, where in the officer's opinion there is potential impact by a proposal on the environment and/or amenity of adjoining properties or the locality, draft LPP3.2 provides discretion to undertake advertising to further inform the local government's consideration of the proposal.

Traffic Management and Protection of Roads:

25. Proponents for renewable energy facility applications will be responsible for costs associated with repairing any damage caused to roads or City infrastructure attributable to the construction or operation of the renewable energy facility, following provision and approval of a Road and City of Albany Infrastructure Condition Report.
26. Proponents will also be responsible for the cost of any road upgrades required for the construction or operation of the development.

Other matters to be given due regard by the local government include:

27. Public and aviation safety considerations and
28. Whether the proposal provides a community or social benefit, in accordance with the Clean Energy Council's Guide to Benefit Sharing Options for Renewable Energy Projects, or any relevant State-specific guidance such as the Draft Guideline for Community Benefits for Renewable Energy Projects currently open for public consultation.

Development application documentation requirements:

29. Minimum documentation requirements for development applications are outlined in the draft policy, to provide consistent guidance and certainty to proponents regarding key issues to be addressed and information provided as part of a development application.
30. Proponents to consider preparation of a whole-of-life management plan as part of the development application to capture construction, ongoing operation / management and decommissioning stages and ensure land is rehabilitated to its pre-development condition following the facilities end of life.
31. It is recommended that Council endorses draft LPP3.2 for advertising.

GOVERNMENT & PUBLIC CONSULTATION

32. Should Council resolve to support draft LPP3.2 for advertising, a notice of the proposed policy will be placed in a newspaper circulating in the LPS2 area and published on the City of Albany website. The notice is required to outline the following:
 - a) Where the draft local planning policy can be inspected.
 - b) The subject and nature of the draft local planning policy; and
 - c) In what form and during what period (21 days from the day the notice is published) submissions may be made.
33. Following closure of the submission period, the local government is to:
 - a) Review the draft local planning policy considering any submissions made; and
 - b) Resolve to adopt the draft local planning policy with or without modification, or not to proceed with the local planning policy.

STATUTORY IMPLICATIONS

34. Voting requirement for this item is **Simple Majority**.
35. Consideration of draft new LPPs requires resolution of Council for endorsement to advertise and final adoption following advertising, with or without modifications, in accordance with the Planning Regulations.
36. Should Council resolve to adopt draft LP3.2, with or without modification, a notice must be published as per cl.87 of the *Planning and Development (Local Planning Schemes) Regulations 2015*.

POLICY IMPLICATIONS

37. There are no policy implications relating to endorsing the proposed LPP3.2 for advertising.

RISK IDENTIFICATION & MITIGATION

38. The risk identification and categorisation relies on the City's Enterprise Risk and Opportunity Management Framework.

Risk	Likelihood	Consequence	Risk Analysis	Mitigation
Operational Not progressing with a policy to address this matter—such as LPP3.2—may result in a lack of clear guidance for the assessment of renewable energy facilities, increasing the risk of inconsistent decision-making or undesirable outcomes.	Possible	Minor	Low	Policy provisions are consistent with the considerations set out under the WAPC Position Statement and guided by similar policies created by other regional local governments.
Opportunity: To ensure a sufficient assessment framework for renewable energy facilities proposals within the City of Albany.				

FINANCIAL IMPLICATIONS

39. There are no financial implications beyond what will be used for advertising.

LEGAL IMPLICATIONS

40. There are no legal implications relating to endorsing the proposed draft LPP3.2 for advertising.

ENVIRONMENTAL CONSIDERATIONS

41. There are no environmental implications relating to endorsing the proposed draft LPP3.2 for advertising.

ALTERNATE OPTIONS

42. Council has the following alternate options in relation to this item, which are:
- To resolve to proceed with advertising the policy without modification;
 - To resolve to proceed with advertising the policy subject to modification; and
 - To resolve not to proceed with advertising the policy.

CONCLUSION

43. Staff recommend Council resolve to endorse the draft *LPP 3.2 Renewable Energy Facilities* for advertising.

BACKGROUND

- 3. Council has considered strategic and operational issues which will impact on the 2025/2026 budget.
- 4. Under section 6.36 of the Local Government Act 1995, the City is not required to advertise the proposed rates amounts for the 2025/2026 financial year.
- 5. From 1 February 2025, all WA local governments can choose to make superannuation contributions to council members (absolute majority required), with this becoming mandatory for Class One and Two local governments (including the City of Albany) from 19 October 2025.
- 6. This reform, introduced through the Local Government Amendment Act 2024, aims to attract and retain diverse and committed council members by recognising their time and contribution, and aligning more closely with broader workforce conditions.

DISCUSSION

- 7. Through Council workshops, Council members have considered various factors in developing a financially responsible budget, while ensuring compliance with Local Government legislation, work health and safety requirements, continuation of the various services provided by the City, cost-saving initiatives and new capital projects that are “project ready” or will be required to be undertaken this financial year, given commitments previously made by Council.

8. An important consideration in preparing any budget is to ensure that Council works towards achieving financial sustainability for the future.
9. The draft budget reflects a number of factors to maintain financial sustainability, which will impact not only on this year's budget but will have a compounding effect in future budgets.

GOVERNMENT & PUBLIC CONSULTATION

10. The Department of Local Government, Sport and Cultural Industries is not consulted prior to budget adoption. Once the Budget is adopted, a copy is sent to the Department for review.

PUBLIC CONSULTATION / ENGAGEMENT
