

# TIPS FOR KEEPING VINEGAR FLIES

## OUT OF YOUR HOUSE

Have flies hanging around your FOGO caddy? They're probably vinegar flies which are 3mm long, yellowish in colour, with red eyes.

A few tips to keep them out of your house:

- ✓ Remove overripe fruit and vegetables from benchtops
- ✓ Rinse wine, beer and juice bottles before recycling
- ✓ Ensure the lid of your kitchen caddy is closed
- ✓ Clean kitchen drains, around bins and fridges
- ✓ Create a vinegar trap with dishwashing liquid, apple cider vinegar and a little honey in a small jar ( check out the instructions by scanning the QR Code here )
