BOOKS ON PRESCRIPTION provides people with a list of useful, evidence-based self-help resources that have been recommended by health professionals and organisations directly involved in mental health, as well as people who have experienced mental illness.

Resources in this booklet (and many other similar books) are all FREE to borrow from Albany Public Library.

The resources in this booklet are listed with the shelf location alongside the authors name – e.g. Dan Hughes 641.9 HUG.

Each resource is marked with the special **BOOKS ON PRESCRIPTION** logo as seen here.

This initiative does not replace professional care from your GP.

"If you feel that you may have a mental health issue, it is important that you make an appointment with your GP. (A long appointment with your GP is usually best for mental health concerns). Your GP will make an assessment and provide you with a specific diagnosis and an individualized treatment plan. Part of this treatment plan will involve some education around your particular mental health condition. As part of this patient education and treatment plan, your GP or mental health practitioner may well recommend one or more titles from the "Books on prescription" list."

Dr David Tadj MBBS, FRACGP, DRANZCOG
